ProAgria

- ProAgria is the largest provider of agricultural advisory and training services in Finland.
- ProAgria is an active member in national and international networks like the European Forum for Agricultural and Rural Advisory Services (EUFRAS) and the Finnish AKIS.
- We are a trusted partner in both national and international projects funded by Horizon Europe, Interreg and Erasmus+ programmes.

LIVESTOCK PRODUCTION
experts in milk production, mother and beef cow production, and sheep and goat farming help our clients to optimise feeding, improve production results and improve animal welfare.

BUSINESS MANAGEMENT
experts support agricultural and rural entrepreneurs in business development, human resource management and Lean to enhance strategic thinking.

PLANT PRODUCTION
experts help our clients to choose the most profitable and sustainable solutions to ensure desired results in crop and garden production.

FINANCIAL MANAGEMENT
services offer entrepreneurs a comprehensive view of how their business can be developed as a whole.

CLIMATE SOLUTIONS
are provided to our clients at local and farm-specific levels. Our goal is to ensure climate-resilient agriculture across Finland and support climate actions aligned with other business targets.
